

OUR ROOTS

RUN DEEP

“ Winemaking is our expert craft and rooted deeply within my heritage. My father was a well known Winemaker, as was my Uncle and Grandfather. There has always been a bottle of wine on the family table, today that bottle is Piattelli. ”

Valeria Antolin, Piattelli Winemaker

OUR PROCESS

ALL ABOUT THE GRAPES

At Piattelli we institute a low-volume process which means we focus on the quality of grapes over quantity. When the vines support less grapes, they become healthier and this establishes a rich flavor profile. Once picked, we use a unique gravity-flow system to ensure that the flavors are preserved throughout the vinification process.

PIATTELLI VINEYARDS

MENDOZA

LUJÁN DE CUYO, ARGENTINA

ELEVATION: 3,300^{FT}

Originally founded by descendants of the Italian Piattelli family, and now owned by Jon and Arlene Malinski of Minnesota, the Mendoza vineyard and winery is the production hub for the majority of our varietals.

Located in the foothills of the Andes Mountains, our vineyards rely on irrigation from the pure waters melting from their snow-crested peaks, a significant aspect of what makes our wines exquisite.

SALTA

CAFAYATE, ARGENTINA

ELEVATION: 5,577^{FT}

Opened in fall of 2012, our Cafayate winery has quickly become one of the premier wineries and tourist destinations in Salta, where only two percent of Argentine wine is produced. We are proud to introduce the world to the beautiful wines of this northerly sister region to Mendoza. The Cafayate Valley is ideal for grapevine cultivation, particularly with the Queen of Argentine wines: Torrontés.
