## ABOUT PIATTELLI’S GROW REGIONS

At Piattelli, we believe it is only possible to make world-class wine using world-class grapes. “The best technique in the world won’t make up for an environment not perfectly suited to a given varietal.” Piattelli Winemaker Valeria Antolin says.

We take great pride in crafting wines of place, where the atmosphere of Argentina gives grapes a growing advantage. The high altitudes, and low-precipitation altitudes at our vineyards, create a perfect climate for grape growth. The transition from warm days to cool nights stimulates grapes to produce concentrated amounts of flavors, aromas and colors. That is the first step to producing stunning, complex wine.
